COLOR VARIATIONS

Shade variation is inherent in all wood visual products. Shade and texture can vary slightly or significantly from piece to piece within a color. V1 shade variation has little or no change from piece to piece, where a V4 will have a large variety of color and/or texture changes. Prior to any installation, a range of tiles should be approved by the customer on V3 and V4 colors. **Emery features V2, V3 and V4 variations.**
